

Cosmetics clinical trial and efficacy evaluation company

Korea Dermatology Research Institute

"Korea Dermatology Research Institute, seeking new values and trust"

- Functionality assessment for health functional food
- Human Application Test for the Cosmetics and Beauty Devices
- Cosmetics evaluation test for Chinese market

Korea Dermatology
Research Institute,
seeking new values and trust

CONTENTS

ABOUT OUR COMPANY

Korea Dermatology Research Institute was founded on April 9, 2012. and re-established as the clinical business headquarter of GFC Life Science Co., Ltd. in 2019.

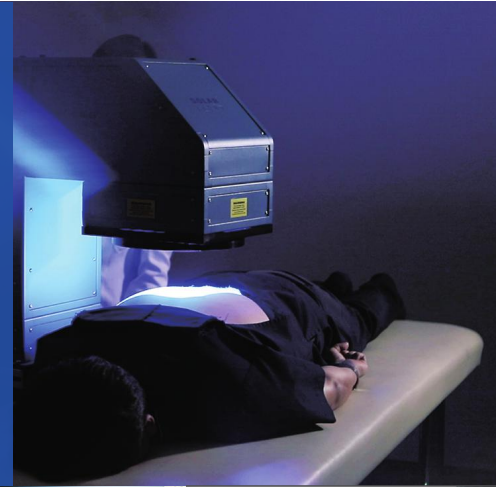

Dermatologists and researchers with extensive experience in cosmetic clinical trials are directly involved in all measurements from the start of the test, resulting in more accurate and reliable results. We are working hard to design the optimal test and analyze the results in various ways to meet the needs of our clients under the advice of experts with a wide range of experience from the manufacture of cosmetics raw materials and analysis of finished products.

Beautiful Science, Explore New Territories

We are committed to the development of the best bio-materials by leveraging our superior research power. We are securing market competitiveness through research and development using natural materials, and are ensuring stability and reliability through in-vitro and in-vivo studies.

Evaluation of health functional Foods

Cosmetics evaluation test for Chinese market

Health functional food evaluation test according to the Ministry of Food and Drug Safety guidelines

Skin health	Moisturizes the skin
	Skin wrinkles
	Skin elasticity
	Percutaneous water loss
	Degree of keratinization
	Skin roughness
Hair Health	Hair shine
	Hair elasticity

Evaluation test for cosmetics product approval in China Including in-vitro test, clinical trial, and in-home use tests

Efficacy	Acne Improvement
	Nourish (28d)
	Repairing
	Firming
	Soothing
	Oil-control (28d)
	Moisturizing (8H)
	Moisturizing (12H)
	Mild (non-irritation)
Safety testing	Assessment of Human Skin 24hr Patch Test
	Assessment of Sensitive Skin 24hr Patch Test
	Safety Evaluation of Using Tests of Cosmetics on Human Body
	Safety Evaluation of Using Tests of Cosmetics on Human Body (Sensitive Skin)
Consumer use evaluation test	Consumer Use Test (28d)

Efficacy evaluation

Wrinkle Elasticity	Crows Feet Improvement	Frown Line Improvement	Skin Pressure Marks Improvement
	Temporary Crows Feet Improvement	Five Major Wrinkle Improvement	10-fold Wrinkle Improvement
	Temporary Elasticity Improvement	Elasticity Improvement	Dermal Elasticity Improvement
	Core Elasticity Improvement	Elasticity Restoring Power Improvement	Lip Lifting
	Cheek Lifting	Hollow Cheek Volume Improvement	Sagging Skin Lifting
	Elasticity Restoring Power Improvement	Temporary Double Elasticity Improvement	Double Elasticity Improvement
	Dermal Density Improvement	Temporary Dermal Density Improvement	Dermal Thickness Improvement
	Anti-aging	Anti-aging (Wrinkle + Moisture + Elastic + Skin Tone)	Anti-aging (Wrinkle + Moisture + Density + Skin Brightening)

Whitening	Whitening on Hypermelanosis	Melasma Improvement	Inside Melasma Improvement
	Double Melasma Improvement (Outside & Inside)	Temporary Skin Brightening	Skin Brightening
	Temporary Skin Transparency Improvement	Temporary Skin Glossiness Improvement	Skin Glossiness Improvement
	Temporary Skin Glossiness Improvement	Skin Pigmentation Distribution Improvement	Melanin Area Improvement
	Melanin Improvement under the Eye	Dark Circle Relief	Skin Toning
	White Cast	Skin Glossiness Improvement in the Diamond Zone	Skin Glossiness Improvement

Surface care	Dead Skin Cells Improvement	Skin Dry Exfoliation	Skin Smoothness Improvement
	Skin Texture Density Improvement	Water Distribution Improvement	Skin Texture Improvement
	Pore Volume Improvement	Pore Area Improvement	Pore Depth Improvement
	Pore Number Improvement	Pore Contraction	Blackheads Improvement
	Whiteheads Improvement	Temporary Sebum Removal	Sebum Reducement
	Quadruple Pore Improvement	Sebum Removal by Cleansing	Cellulite Reduction
	Temporary Pore Volume Improvement	Temporary Skin Pore Area Improvement	Temporary Pore Depth Improvement
	Temporary Pore Number Improvement	Temporary Pore Contraction	Temporary Quadruple Pore Improvement

Moisturizing	Moisturizing	Moisturizing Improvement in the Lower Layer of the Stratum Corneum	Moisture Distribution Improvement
	Tightening Improvement due to Dryness	6 Hours Moisturizing Lasting	8 Hours Moisturizing Lasting
	12 Hours Moisturizing Lasting	N Hours Moisturizing Lasting	Temporary Moisture Barrier Formation
	Temporary Moisturizing Improvement	Temporary Double Moisturizing Improvement	Triple Moisturizing Improvement
	Moisturizing on 10th Floor of Skin	Double Moisturizing Improvement	Moisturizing on 20th Floor of Skin

Efficacy evaluation

Color cosmetic	N Hours Color Lasting (Glossiness/Pore/Melasma Cover)	Mat Finish Lasting	Color Adhesion Evaluation
	Melanin Coverage	Waterproof Evaluation	Redness Coverage
	Eyelash Length(Volume) Improvement	Mascara Waterproof Evaluation	Make-up Smudged Evaluation
	Make-up Evaluation (Adhesion or Adsorption or Fixation)		
Cleaning	Waste Cleansing	Foundation Cleansing	Sunblock Easy Washable
	Scalp Sebum Removal by Cleansing	Particulate Matter Cleansing in Pores	Particulate Matter Cleansing
	Moisture Retention after Cleansing	Skin Cleansing	Silicone Cleansing
Skin barrier	Skin Water Barrier Improvement	Skin Water Barrier Enhancement	Skin Calming After Physical Stimulation (Chemical/UV/IR Irritation)
Other efficacy	Triple Balance	pH Balance	pH and Moisture Balance
	Non-comedogenicity	Antioxidant Index Improvement	Temporary Antioxidant Index Improvement
	Swelling Relieving	Temporary Swelling Relieving	Make-Up Absorbency(anti-caking)
	Assessment of Skin Cooling Effect	Assessment of Anti-Dust Effect	Skin Microbiome Change
	Usability	Sensual Characteristic	Skin Antibacterial
	Assessment of Blue Light Blocking Effect	Assessment of Skin pH Change Effect	

Scalp	Scalp Water Barrier Improvement	Temporary Scalp Moisturizing Improvement	Scalp Moisturizing Improvement
	Scalp Sebum Improvement	Temporary Scalp Sebum Improvement	Scalp Sebum Reduction and Retention
	Scalp Cleansing	Temporary Scalp Dead Skin Cells Improvement	Scalp Dead Skin Cells Improvement
	Scalp Elasticity Improvement	Scalp Elasticity Improvement	Assessment of Scalp Calming Effect After Physical Stimulation
	Scalp Antioxidant Index Improvement	Scalp Blood Flow Improvement	Assessment of Scalp Cooling Effect
	Dandruff and Pruritus Improvement		

Hair	Hair Volume Improvement	100 Hours Hair Volume Lasting	Hair Curling Effect
	12 Hours Hair Curling Lasting	24 Hours Hair Curling Lasting	48 Hours Hair Curling Lasting Effect
	Hair Glossness Improvement	6 Hours Hair Glossness Lasting	12 Hours Hair Glossness Lasting Effect
	24 Hours Hair Glossness Lasting	48 Hours Hair Glossness Lasting	Hair Angeling Effect
	Hair Tension Improvement (Hair Breakage)	Hair Fine Dust Cleansing	Hair Moisturizing Improvement Effect
	Hair Protein Binding Ability	Hair Loss Improvement	Hair Heat Damage Improvement

Functional evaluation

Wrinkle	Anti-wrinkle Effect
Whitening	Whitening Effect on Hypermelanosis
	Whitening Effect on Induced Pigmentation
Acne	Anti-Acne Effect
Stretch marks	Striae Rubra Alleviation Effect
hair loss	Alopecia Improvement Effect
UV	PA (Protection Factor in Ultraviolet A) / SPF (Sun Protection Factor)
	Assessment of Water Resistance Sun Protection

Safety assessment

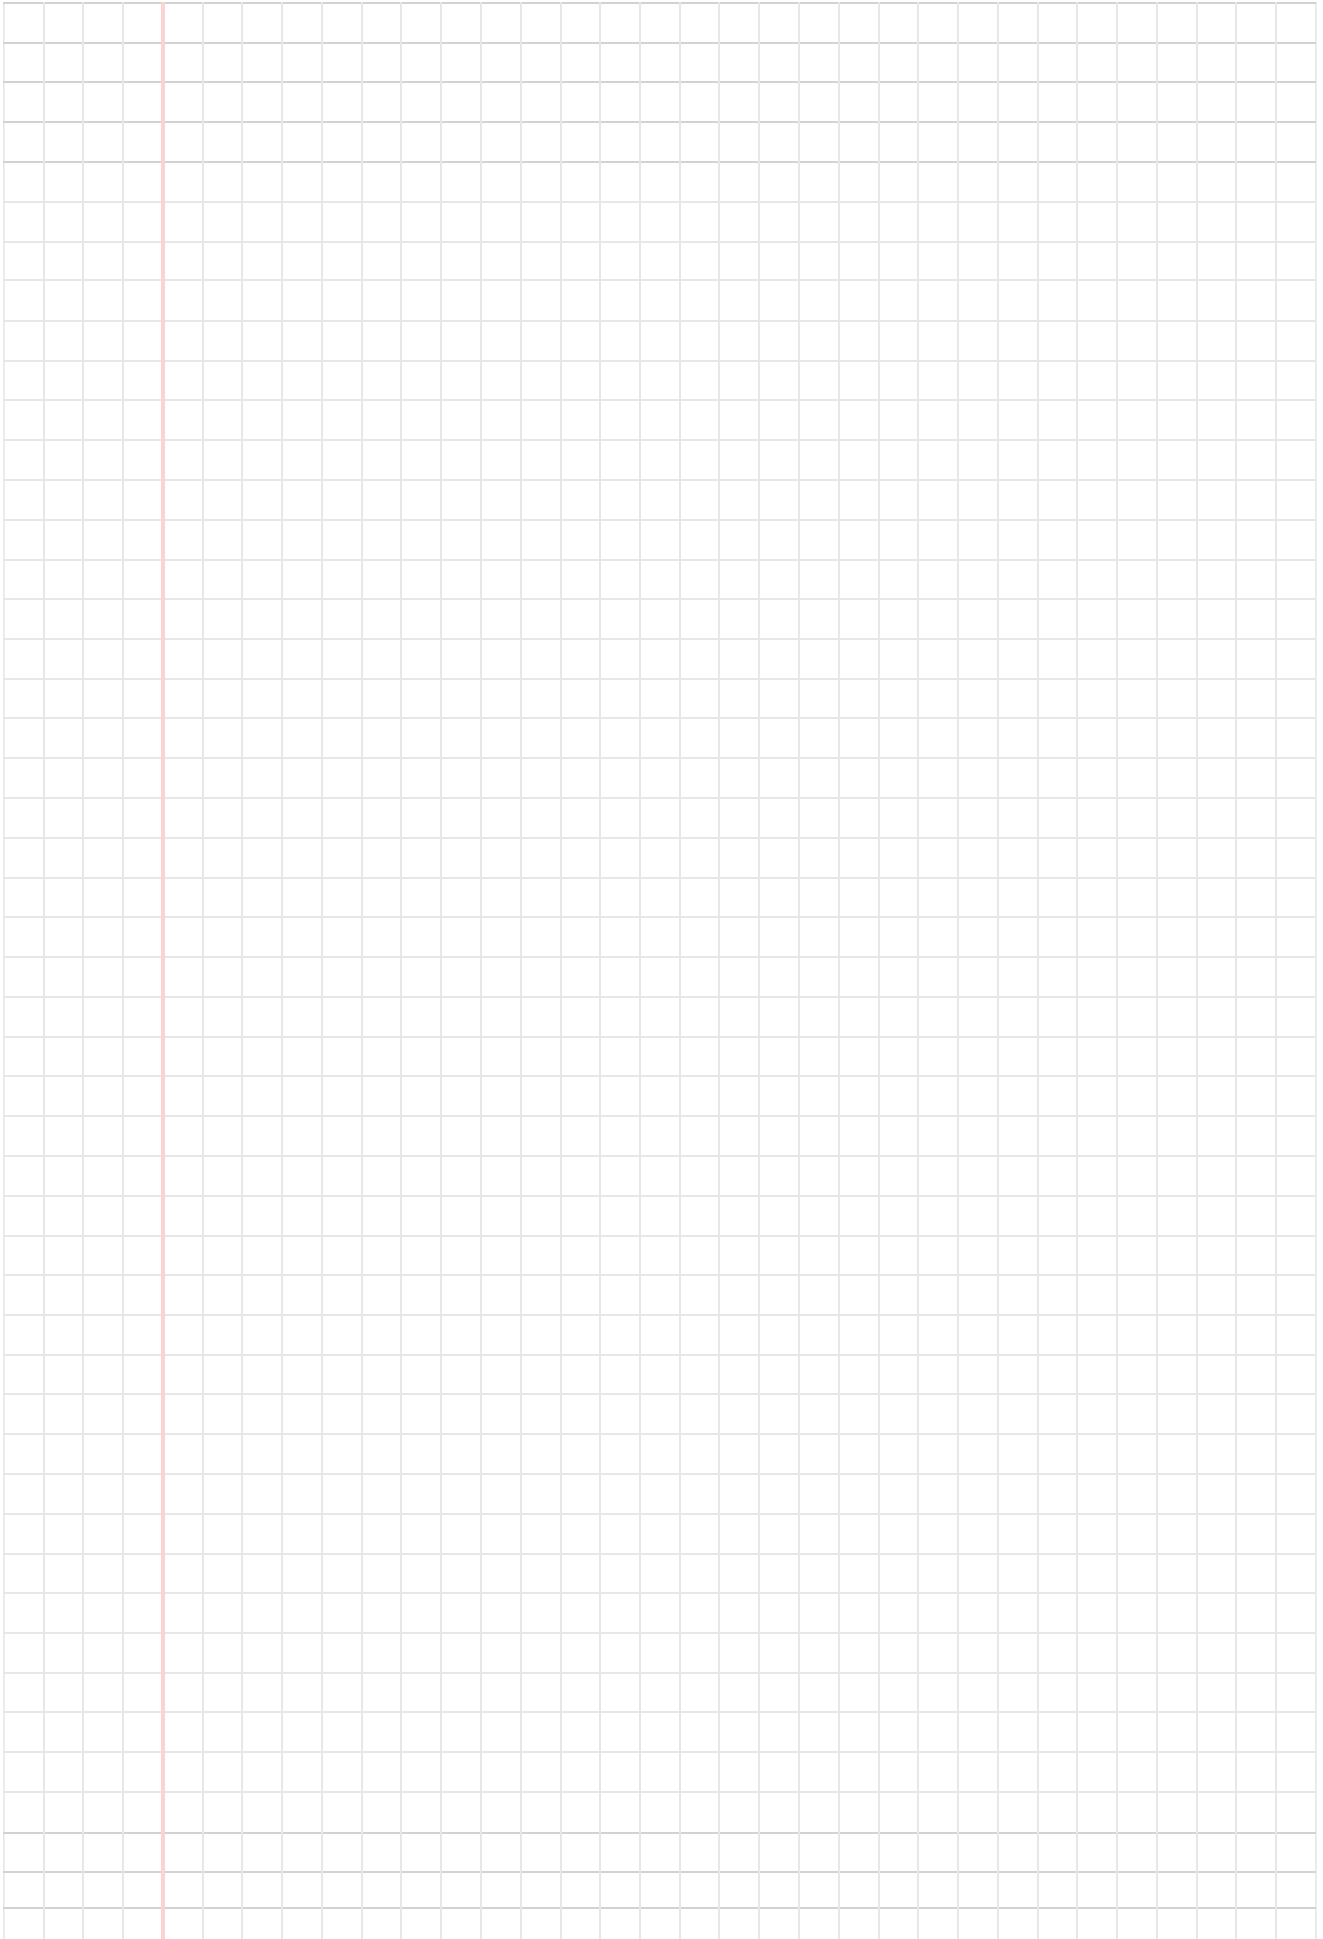

Human Skin 24hr Patch Test	Sensitive Skin 24hr Patch Test	Human Repeated Insult Patch Test
Sensitive Human Repeated Insult Patch Test	Eye Irritation Test	

IN-VITRO

IN-VITRO Evidence data for functional efficacy test	IN-VITRO Efficacy evaluation data	
Whitening	Antibacterial	Transdermal
Mushroom Tyrosinase inhibition assay	Antimicrobial activity assay	In vitro skin absorption test (Synthetic membrane)
Melanogenesis assay	Antimicrobial activity assay (C.acnes)	In vitro skin absorption test (Full skin)
	Challenge test	

Wrinkle	Antioxidant	Activation
Elastase inhibition assay	DPPH radical scavenging activity	proliferation (fibroblast)
Collagenase(MMP-1) inhibition assay (EIA)	ROS scavenging activity	Woundhealing assay
Procollagen type 1 synthesis assay (EIA)	ORAC assay (Oxygen Radical Absorbance Capacity)	Cell viability

Moisturizing	Inflammation	
HAS2 protein expression assay	NO synthase inhibition assay	TNF- α production assay 1LOT3
Hyal1 protein expression assay	COX-2 protein expression assay	TARC/CCL17 level assay 1LOT3
Filaggrin mRNA expression level	INOS protein expression assay (western blot)	
AQP3 protein expression assay	IL-6 production assay 1LOT3
